ISO 14001

ISO 14001 is an international standard for designing and implementing an effective Environmental Management System (EMS) to help organizations improve their environmental performance.

EMS

Environmental Management Systems (EMS) are frameworks that help organizations systematically manage their environmental impact, improve sustainability, and comply with regulations.

ABOUT THE SPEAKER:

M.S. in Environmental Resources Management from USC, B.S. in Chemical Engineering from America University in Colombia. Certified ISO 14001:2015 Lead Auditor, Certified Sustainability Professional by Global Reporting Initiative.

Microsoft Teams Meeting
