

Factsheet
Air University Associate-to-Baccalaureate Cooperative
Community College of the Air Force to
East Carolina University

The purpose of this interactive factsheet is to convey facts and key points to the Airman who possesses a Community College of the Air Force (CCAF) Associate of Applied Science (AAS) degree AND who has an interest in pursuing a Bachelor of Science in Industrial Technology (BSIT) through East Carolina University (ECU). While every attempt is made to ensure the information contained within is current and that hyperlinks continue pointing to their original destinations, “stuff breaks”. If something appears to be broken, or if you have questions or need clarification, feel free to contact the factsheet editor and ECU AU-ABC point-of-contact: Amy Frank, franka@ecu.edu.

About the BSIT

The BSIT is a degree completion program designed for students who possess a qualified AAS degree in an industrial or technical related discipline—see Appendix A for the list of qualified CCAF AAS degrees. Fulfillment of the graduation requirements for the qualified AAS degree provides the foundation and about half of the courses required to fulfil the graduation requirements for the BSIT.

Accreditation

The BSIT is accredited by the Association of Technology, Management, and Applied Engineering (ATMAE). ECU is accredited by the Southern Association of Colleges and Schools (SACS). ATMAE and SACS are recognized by the Council for Higher Education Accreditation (CHEA). Recognition by CHEA affirms that the standards and processes of the accrediting organization are consistent with the academic quality, improvement and accountability expectations that CHEA has established, including the eligibility standard that most institutions or programs each accredits are degree-granting. Regardless of where you choose to continue your education, ensure the program and school are accredited by a body recognized by CHEA.

Point-of-Contact Information

The factsheet editor and ECU AU-ABC point-of-contact is Amy Frank. She can be reached at franka@ecu.edu and +1 252 328 9754.

Application and Enrollment Information

Before you officially apply to ECU, it is highly recommended that you forward unofficial copies of your transcripts (including your CCAF transcript) to Amy Frank, franka@ecu.edu, for an unofficial evaluation of your previous credits.

All Airmen who have attended a post-secondary institution for any length of time since graduating from high school are considered transfer students. To begin the application process, go to <https://admissions.ecu.edu/>

Transfer Student Admission Requirements: <https://admissions.ecu.edu/apply/transfers/applying-as-a-transfer/>

Admission Information for Veterans and Children of Deceased and Disabled Veterans:
[http://catalog.ecu.edu/content.php?catoid=20&navoid=1776#Veterans and Children of Deceased and Disabled Veterans](http://catalog.ecu.edu/content.php?catoid=20&navoid=1776#Veterans_and_Children_of_Deceased_and_Disabled_Veterans)

Tuition and Fees Schedule

Tuition rates are reviewed by the University's Board of Trustees and the Board of Governors of the University of North Carolina System and set annually by the North Carolina legislature. Fees are reviewed and approved by the University's Board of Trustees with final approval pending the Board of Governors of

the University of North Carolina System review. ECU's current tuition and fees schedule can be found at http://www.ecu.edu/cs-admin/financial_serv/cashier/tufee.cfm

Online Academic Support

BSIT website: www.ecu.edu/BSIT

AU-ABC to BSIT point-of contact: Amy Frank, franka@ecu.edu and +1 252 328 9754.

BSIT Academic Advisors:

- Jason Denius is the advisor for all concentrations except Information and Computer Technology and Health Information Technologies. He can be reached at deniusb@ecu.edu and +1 252 328 9610.
- Allison Winters is the Information and Computer Technology and Health Information Technologies concentrations advisor. She can be reached at wintersa18@ecu.edu and +1 252 328 9610.

ECU's Military Portal: <http://www.ecu.edu/military/>

The purpose of this site is to assist veterans, service members, and family members in finding information and resources to help them through their college years at ECU.

Transfer Student Services Guide: <http://www.ecu.edu/cs-studentaffairs/studenttransitions/transfer/index.cfm>

This guide was prepared especially for transfer students making the transition to East Carolina University. Inside you will find information on the admitted transfer student checklist, making the transition to ECU, information regarding New Student Welcome and Convocation, academic resources, student life, a campus directory, and much more.

AU-ABC Program Plan (see [Appendix B](#)) ▲

Course Schedule and Offerings

The BSIT program offers semester-based courses and are offered on a regular basis fall, spring, and summer terms. Once admitted, an official course evaluation will be provided so you can your advisor can create a detailed plan for your remaining degree requirements.

Appendix A: Qualified CCAF AAS Degrees

This list of qualified CCAF AAS degrees is subject to changes as AFSC are added and retired. However, all qualified CCAF AASs are grandfathered once the student has matriculated.

Aerospace Ground Equipment Technology
Aircraft Armament Systems Technology
Aircraft Structural Maintenance Technology
Aviation Maintenance Technology
Avionic Systems Technology
Bioenvironmental Engineering Technology
Computer Science Technology
Construction Technology
Contracts Management
Cybersecurity
Electronic Systems Technology
Emergency Management
Entomology
Explosive Ordnance Disposal
Fire Science
Information Systems Technology
Intelligence Studies and Technology
Logistics
Maintenance Production Management
Management Engineering Technology
Mechanical & Electrical Technology
Metals Technology
Microprecision Technology
Missile & Space Systems Maintenance
Munitions Systems Technology
Nondestructive Testing Technology
Nuclear Weapons Systems Technology
Public Health Technology
Occupational Safety (formerly Safety)
Transportation
Vehicle Maintenance

If you have an AAS not listed above and think it should be considered, contact Amy Frank, franka@ecu.edu.

Appendix B: AU-ABC Program Plan

 Degree Requirement	Required Semester Hours Credits	CCAF Semester Hour Transfer Credits ³	Credits to be taken at Institution— Semester Hours
Major	66	24	42
Lower Division Core	24	24	
Upper Division Core	15		15
One concentration from the following: ¹	27		27
Mechanical Design Technology			
Architectural Design Technology			
Health Information Technologies ²			
Information & Computer Technology ²			
Distribution & Logistics			
Industrial Engineering Technology			
Industrial Management			
Bioprocess Manufacturing			
Liberal Arts Foundations Curriculum³	40	21³	19
English Composition	6	3	3
Natural Science	7		7
Social Science	9	3	6
Math ⁴	3	3	
Humanities and Fine Arts	9	6	3
Health and Exercise	3	3	
General Education Elective	3	3	
Electives	14	14	
Total Credits Required for the Bachelor of Science in Industrial Technology	120	59³	61

¹All concentrations except for architectural design technology and mechanical design technology are available online and on-campus. The architectural design technology and mechanical design technology concentrations are limited to on-campus only. All concentrations, except where noted, are open to all Airmen who possess a CCAF AAS degree listed in Appendix A. However, the Airman may have to complete lower level prerequisite courses before enrolling in upper level concentration courses. As an example, if an Airman possesses a Safety AAS and they haven't completed a computer-aided design course, they would have to complete that course before enrolling in upper-level mechanical design technology or architectural design technology concentration courses. ECU offers all the lower level prerequisite courses, so the Airman does not have to complete that course at another institution. However, if the Airman possesses a more closely related AAS, then the Airman may possess all the required prerequisite courses.

²The Airman should inquire whether their CCAF AAS and their experience is appropriate for pursuing the Health Information Technologies or Information & Computer Technology concentrations. The Airman may be to possess or have equivalent coursework or be willing to obtain a current industry-standard certification (Cisco CCENT, CCNA, CCNP, or CompTIA Network+) prior to taking major coursework.

³The Airman's CCAF program elective courses (15 SH) and their leadership, management, and military studies courses (6 SH) completed to fulfill their AAS graduation requirements will be evaluated for their applicability to fulfill General Education Curriculum and Concentration requirements to the extent the Airman will be able to transfer up to the maximum of 59 SH of CCAF credits.

⁴Must be college algebra or a higher-level mathematics course.
