

Industrial Management Concentration

Bachelor of Science in Industrial Technology

AAS Degree Completion Program

Description of Program

The Bachelor of Science in Industrial Technology (BSIT) is a degree completion curriculum designed for students who hold a **qualifying Associate in Applied Science degree** in an industrial or technology related field. There are two completion options: transfer to the main campus or complete online. All required upper division major courses are offered entirely over the Internet, as well as, on the main campus during the day. For online students, these semester-based courses are delivered to allow students flexibility with regard to time and place. The courses are scheduled on a rolling cycle so that the major courses can be completed in as little as two or three years. The Department of Technology Systems has delivered internet-based instruction since 1995 to hundreds of students all over the world. Please note that our online option is designed for part-time enrollment to help professionals pursue a degree while working.

The **BSIT Industrial Management Concentration** prepares students for leadership careers in a wide range of technology fields including manufacturing management, operations management, supervision, and planning. The program develops the general knowledge required to lead organizational improvement in technical organizations. Students may receive up to 38 hours of lower division major credits for completion of a qualifying AAS degree from a technology related field. In addition, up to 22 hours of general education credits may be applied towards the BSIT if equivalent to our requirements. Graduates are qualified for career advancement opportunities both in technology and managerial fields.

Program requirements

- Completed a qualified associate of applied science degree program.
- Apply up to 60 semester hours from an accredited community college or technical institute.
- Minimum 60 semester hours must be completed at a four-year college or university.
- Minimum 33 semester hours of major coursework must be completed at ECU (available online).
- Only courses with a 'C' or better will transfer.
- Total 120 hours required for this degree.
- Meet ECU admission requirements posted at www.ecu.edu/admissions.
- Review additional details available at cet.ecu.edu/Techsystems.

Industrial Technology Degree Requirements

Industrial Technology Coursework (42 hours)

- Technical Writing
- Technology Project Management
- Cost and Capital Project Analysis
- Industrial Supervision
- Intro to Statistical Process Control
- Industrial Safety
- Quality Assurance Concepts
- Introduction to Distribution & Logistics
- Technical Presentations
- Supply Chain Logistics
- Plant Layout & Materials Handling
- Advanced Manufacturing Systems
- Approved Technical Elective
- Approved Technical Elective or Internet Tools Technology (required for the online option)

Courses to transfer or taken through ECU (78 hours)

AAS Technical courses (38 hrs)

English (6 hours)

- Composition I
- Composition II

Natural Science (7 hours)

Social Science (9 hours)

- Principles of Microeconomics
- Introductory Psychology
- Personnel & Industrial Psychology

Math (3 hours)

College Algebra

Humanities & Fine Arts (9 hrs)

At least one in Humanities

At least one in Fine Art

Hum/Fine Arts to total 9 hours

General Ed Elective (3 hours)

Health & Exercise (2, 1 hours)
