

Bachelor of Science in Industrial Distribution and Logistics

College of Engineering and Technology

Program Description

"Industrial Distribution and Logistics (IDIS) represents highly demanded professions in the challenging field concerned with the flow of goods and services supporting the global economy." ("Bachelor of Science in Industrial Distribution and Logistics") The Bureau of Labor Statistics projects employment to grow 30% from 2020 - 2030, much faster than the average for all occupations.

Our faculty work hard to network with industry partners to pursue our primary goal that students leave us with a job in addition to a highly valued degree. We guide and assist our students through the recruiting process for internships and careers in manufacturing, wholesale distribution, fulfillment center operations, transportation, and business to business sales.

The program provides a unique combination of classroom and hands-on work. Course work integrates information technology and other inventory, transportation, and management technologies to give our graduates a competitive advantage in their career.

Whether you're a prospective student or industry partner, come see us on the 4th floor of the Science & Technology building. We want to make Industrial Distribution and Logistics work for you at East Carolina University
