

Wm. Andy Ferrell

As the founder & CEO of PCI, LLC, Mr. Ferrell's vision and client focus, along with a team of dedicated and technically skilled Associates, provide many Life Science industry clients with successful services and effective problem resolutions. The company's service delivery model was based on his graduate school thesis at East Carolina University where he completed his master's degree in 1992 while working at Burroughs Wellcome in Greenville, NC.

PCI specializes in providing clients consultancies and technical services to meet their FDA compliance requirements. Since the inception of PCI in 1996, Mr. Ferrell's vision of providing clients with effective and productive solutions has enabled the company to continue to grow both in size and services offered. The company is headquartered in Raleigh, NC and has offices in Boston, Gaithersburg, MD, Indianapolis, Seattle, San Francisco, and Boulder, CO.
